EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Kirk Teska on 06/22/2004.

The application has been amended as follows: In claim 1, line 4, --, a dwell port— has been inserted after "...port..." but before "...and..."; in line 5, --a switching device for connecting said conduit to one of said positive pressure port, said negative pressure port or said dwell port;-- has been inserted after "...port;...".

The above amendment was made in order to provide antecedent basis for a dwell port, a switching device as well as the physical cooperative relationship between the switching device and the dwell port, positive pressure port and negative pressure port.

2. The following is an examiner's statement of reasons for allowance: the overall claimed combination of an insufflation-exsufflation system for removal of bronchopulmonary secretions including a pressure source with a positive pressure port, a dwell port and a negative pressure port; a sensor system for sensing an inhalation by a patient and a controller system for driving said switching device to connect said conduit sequentially to said positive pressure port, said negative pressure port and said

dwelling port and to return again to said positive pressure port in response to said sensor system sensing an inhalation by the patient when said conduit is connected to said dwelling port, is neither anticipated nor rendered obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to AARON J. LEWIS whose telephone number is (703) 308-0716. The examiner can normally be reached on 9:30AM-6:00PM M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, HENRY A. BENNETT can be reached on (703) 308-0101. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
